Experienced in working in both collaborative and non-collaborative work environments, excellent time management skills, adaptable to new technologies (both hardware and software), and experienced with professional communication as a point of contact for a department.

TECHNOLOGY

Strong knowledge of HTML, CSS, JavaScript, React.js, JQuery, ExpressJS, Node.js, SQL, MongoDB, command line through Bash and macOS terminal, Git, Windows 7, Windows 8, Windows XP, Windows 10, OSX, PC and Mac hardware, iPhones, iPads, video/audio systems, modern A/V equipment, Smart Boards (i.e., Interactive Whiteboards), and Apple's iWork and iLife suites, Microsoft Office, Adobe Creative suite, Final Cut Pro, Audacity, printers, scanners

Projects

CineCenter - cinecenter.herokuapp.com/ | github.com/TrentSchneider/CineCenter

<u>Description</u> - A full-stack web app that allows the user to view movie trailers, create movie watch lists, find nearby theaters, and search/pull up detailed movie information.
<u>Technology</u> - HTML, CSS, JS, ReactJS, NodeJS, ExpressJS, MongoDB, OMDB API, Google Maps API, Google Places API, Google YouTube Data API.

Weather Dashboard - trentschneider.github.io/WeatherDashboard/ | github.com/TrentSchneider/WeatherDashboard
<u>Description</u> - A weather tracking site that is able to give the user the current and five day forecast for their current location or any city they look up.
<u>Technology</u> - HTML, CSS, JS, Ajax, OpenWeatherMap API, JQuery

Employee Directory - trentschneider.github.io/EmployeeDirectory/ | github.com/TrentSchneider/EmployeeDirectory
<u>Description</u> - An employee directory site which allows the user to search for employees by first or last name, sort the current results by alphabetical order, and has search functionality that updates the current search results as the user types in the search box.
<u>Technology</u> - HTML, CSS, JS, ReactJS

EXPERIENCE

CorVel Corporation   **2012 – Present**
Provider Data Supervisor

- Install and setup PC workstations and software for new employees
- Assist employees with PC hardware and software issues
- Supervise, train, and lead employees
- Interview, hire, and train new employees in CorVel's Medcheck Software and give them the skills they need to successfully complete assignments
- Manage several databases to ensure medical and worker's compensation bills are expedited properly and effectively

- Scan and upload contracts and documentation
- Analyze and track cases, bills, customer updates, spreadsheets, and word documents to ensure company, customer, and geographic policies are complied with; this includes HIPAA protected information
- Evaluate and verify the accuracy of new medical provider contracts and addendums in order to accurately maintain databases
- Complete annual performance evaluations for employees
- Act as a main point of contact for the department

Bethesda Softworks   2011 – 2012
Quality Assurance Tester
- Tested game software to ensure quality and identify issues and defects
- Worked with PC, iPhone, iPad, and gaming consoles for The Elder Scrolls V: Skyrim, Rage, Rage Mobile, Brink, Dishonored and Doom 3 BFG games
- Maintained optimal functionality of PC hardware to insure testing accuracy

High Point University   2010 – 2011
Media Services
- Evaluated the needs of campus constituents and recommended hardware and software
- Maintained and tested media equipment to ensure that it was in proper working condition, including digital cameras, video cameras, projectors, printers, audio recording equipment, photocopiers, scanners, etc.
- Coached and trained students, staff, and faculty on the effective and proper use of media software and technology, including software such as Audacity, Adobe Photoshop, and Final Cut Pro, and hardware such as digital cameras, photocopiers, and projectors
- Facilitated the production of all incoming requests for the scanning and printing of photos, documents, posters, and marketing materials on-campus

High Point University   2010 – 2010
Information Technology
- Analyzed technical problems and provided necessary maintenance on Windows/Mac desktop computers and laptops, Smart Boards, Projectors, and video/audio systems in order to repair hardware and software in a timely manner
- Organized and cataloged equipment for faculty, staff, and students
